Valuation Approaches and Metrics: A Survey Article Valuation lies at the heart of much of what we do in finance, whether it is the study of market efficiency and questions about corporate governance or the comparison of different investment decision rules in capital budgeting In this paper, we consider the

Time Value of Money

CHAPTER 28 In Chapter 1, we saw that the primary objective of financial management is to maximize the value of the firm's stock We also saw that stock values depend in part on the timing of the cash flows investors expect from an investment—a dollar expected soon is worth more than a dollar expected in the distant future

8 INVENTORY VALUATION

will they now be valued in the year end inventory valuation? solution • At 31 December, the five items will be valued at a cost of £15 each, ie $5 \times £15 = £75$ • Twelve months later, the three items remaining unsold will be valued at a net realisable value of £10 each, ie $3 \times £10 = £30$
